Experience

• 2023 - Present

Freelancer

UI Designer

As a freelance UI/UX designer, I combine creativity, technical skills, and user-centered design to deliver high-quality, functional interfaces. I specialize in user research, wireframes, prototypes, and usability testing, ensuring visually appealing designs that provide exceptional user experiences and exceed client expectations.

• 2024 - 2025

Orange coding Academy Bootcamp

UX UI | Full Stack Developer

The UX/UI & Full Stack Developer role at Orange Coding Academy Bootcamp combines designing user-friendly interfaces with developing complete web applications, covering both front-end and back-end technologies.

● 2022 - 2024

Kayan Tech

UI UX Designer | Frontend Web Developer

- Led the design of user-centric, visually engaging interfaces for web and mobile applications. Conducted thorough user research, created detailed wireframes, and developed interactive prototypes. Collaborated closely with cross-functional teams to enhance user experience and maintain design consistency, driving a 35% increase in user engagement and a 20% decrease in drop-off rates.
- Enhanced user experience and increased customer engagement by developing and customizing 50+ web pages using panels, resulting in a 30% increase in website traffic and a 20% boost in conversion rates.
- Developed responsive web designs that increased mobile traffic by 25%, leading to a 20% boost in overall website engagement and conversions.

● 2019 - 2020

Advanced Internet Solutions

UI/UX Design and Frontend Development

- Enhanced website responsiveness by optimizing frontend codebase, resulting in faster load times and improved user experience.
- Optimized frontend development processes, resulting in improved user engagement and satisfaction through the implementation of intuitive UI/UX designs.
